## DIGMESA H ORIGINAL LIQUID FLOW SENSING SOLUTION

DiEITEETA

## Flow Sensor FH Technical Information

Coffee brewing is a fine art, especially when a consistent quality level is to be attained. Accordingly, it is critical to ensure that only high-quality materials are used in professional coffee machines. The Classicline FH meets even the most exacting standards. This proven flow sensor made of solid, lead-free brass provides dependable service for many years, even under the extreme conditions encountered in professional machines.

## Flow Rate I/min

| Nozzle | Min | Max |
| :--- | :--- | :--- |
| 1.0 mm | 0.038 | 0.58 |
| $1.14 \mathrm{~mm}(2000 \mathrm{mmp/l})$ | 0.087 | 0.85 |
| 1.2 mm | 0.052 | 0.80 |
| 2.0 mm | 0.097 | 2.32 |
| 2.5 mm | 0.172 | 3.78 |
| 3.0 mm | 0.083 | 4.66 |
| 4.0 mm | 0.187 | 8.30 |
| 6.0 mm | 0.416 | 11.55 |

Output Signal
Pulse

## Material

Lower Part: Brass (food grade, uncoated), Upper Part: PA (Fiberglass Reinforcement)
Full Bass Lower and Upper Part

## Application examples

Professional coffee machines, commercial ovens / bakery ovens

| Housing | FH Flat | FH Flat Brass |
